

U. S. NAVAL AIR STATION
Patuxent River, Maryland

11 Jan. 1953

Dear Mom and Dad.

Sorry about not writing oftener but I ran out of stamps. I think I'm going to send my letters with 3¢ stamps from now on for it only takes an extra day.

I wrote Bonnie and she answered. She still as nutty as she was before she got married.

Will you send me Mrs Stowell's address and also Jim Liddbergh's. You'll find his in a book I have upstairs on the dresser or in the box of letters I have. Not the box with my letters that I received in the Navy.

I am coming home for a weekend in February and I am bringing a girl I chum around with plus two fellows who are very nice. I have been seeing this one for three weeks now. He picks me up every night from the club and brings me to the barracks.

I received a card from Sheila and she is living in her new home now.

I sleep all day or go outside the base and do some shopping

I'll be glad when Thursday comes for we get paid. I spent most of my money on three pairs of shoes that I needed and some jewelry.

I've heard that you had quite a snow storm there. It has been raining every day for the past three days. In the evening it gets so foggy that you would think you were in London.

I have to get ready for work now and there is an extra letter floating between us.

Give James my love and how is Dad's bowling coming along?

Cheers for now.

Love and Kisses

Irene
