

WILLIAM GLEASON,  
TOOL BUILDER  
OFFICE, BROWN'S RACE.

WILLIAM GLEASON, Pres.  
KATE GLEASON, Sec'y.  
JAMES GLEASON, Supt.

Newcastle On Tyne  
~~ROCHESTER, N. Y.~~, Nov 12<sup>th</sup>

Dear Kate your letter of the 28<sup>th</sup> is received this  
day too late to be mailed by Wednesday boat  
By changing my Plans and leaving Ireland and  
the letter being to be taken out and remailed, delayed it.  
I have or will telegraph to you in the morning to do as  
you like about the lot. Or I would prefer to purchase the  
lot build a single house on it. Of larger size that  
had of a double one could be we could then agree  
with Martin as to occupying I think that when  
they were using it they might retain one large bed  
room up stairs where Ellen and myself might go down  
any night that we choose and come up in the  
morning. While they were using it they to have the  
privilege of doing likewise. I like the idea of the  
single house best. a double house on a 40' lot  
is too much you can go ahead and make a  
deal you like better buy & build in company  
with Martin or lease. I have the gear planes  
ready to start by noon on the 13<sup>th</sup> Everything is  
going on all O.K. here. I will leave here on Tuesday  
Next and sail on Saturday the 22<sup>nd</sup> on

the Sumner Steamer Etanria from Liverpool and will  
be with you about the 1st of Dec there is a Man from  
Hamilton O that I Met On the Wm. He keeps  
a Machine Shop and has been to Our Place  
On several Occasions. and he Wants to return  
On the same boat. I have heard from him and  
We have made Our arrangement that gives me three  
four days in London. he is a very Patriotic  
American. and is not disposed to stand any  
abuse of his Country he is traveling for his  
health. and is not Rhyming in his best trim and  
On several Occasions I took the light of  
his hands. and as he says dare it Justice he  
has taken quite a fancy to me so much  
so that he Wants a week to be home together and  
I am very much Pleas'd also give my love  
to all.

P.S I have ceased to Mow the birches  
did give me some measures. until I receive  
your letter. so I will not pay them any more attention  
there is lots of things to be seen at Dr. M. I am  
the average they are bas in the Rear as to Machinery.  
goodbye  
Williams. Yeason
