Dear Kate

I arrived here late
last night and you can't
have the least idea of the
plight I was in. Several
not make my self understood
nor could I understand a word
until I thought of the name
of the Hotel, at which I
kindly arrived. The
Stadlingmatt gave it
to me as being a good
place to stop at as the
Manager and most of
the attendants speak English,
it seems too hee warno
that the Berlin ed. mee
all eat. so it take it the

it is the same in German
as in English at all Events
after an Effort of nearly
½ hour in trying about
twenty of the Names of
Hotels in books and
the Express books
I thought of this one and
so far I have not any
difficulty, but the lack
of Knowledge of the
Language retard my
business, and makes
what I do more costly as
I have to hire a coach
and for every Place
I go to but they are

and easily had at all Point
I have got through with
Hilgenberg and My visit
will result in a sale of
a 48" half automatic.
I also visited Spickard & Co
and spent a couple of hours
with them, and then visited
the art gallery for the morning
have and got lost in the
labyrinth of Rooms and
lost a half hour trying to
get out. None of the
attendants being able to
understand what I wanted.
At Low Picking the fare was
up very fast and I think
I'd take about one week

I can only deliver a lecture
On it I have already mastered
the finances, and know the
value of the different coins
relating - as to one more
shukast I want metaryoto
Miyama and Keitser agent
there, and I may have to go
if so it will put quite a job
in my finances, and I may
even send the 50 £. to be
received at Paris. I will
take Steer's Passage home,
but I am however I expect
shukast has an elegant
place. they have one of the
of Plavers summy and in
your shape they have a new
here from Bremen West.
