

Lyons Falls

OCT 9 98

Dear Kate I arrived here
at 11 A.M. and I find
Margaret very nicely
settled. I forgot to tell
you about the German
and French Patent,
after talking to Mr
Whitmore I decided to
drop the German
Pat and as to the
French I don't care
whether you put them
through Or Not you
can talk it over among
yourself and do as you
like. the cost of the French
would be \$50. my belief is
that the value will be

Mainly in connection with
the gear Planers if we
succeed in making an
attachment to cut the
grooves and do it
easily and rapidly
there in will lie the
Main Value and it
in the Patent. it may
take a year or so
to develop the machine
and then I look forward
to a good trade so
that you see I am ventured
as to any farther Patents
What ever they may act
Notify Whitmore at
Once my love to all

W^m H. Gleason
