

The College Arms

JOHN G. HOLLAND, MANAGER

De Land, Florida. March 2 1911

PRIVATE OFFICE

My dear Daughter

I have just received a very nice letter from Elmer which pleases me very much. She takes your view of the house proposition - that Margaret ought to be consulted. She is going to write to Margaret. I have received a letter from Elsie in answer to one in which I informed her of your views on the house question. She says that it is very much pleased. It will be all right to write to her inviting her up if she don't accept. She is pleased that you considered her in the arrangement. I hope she will accept the job of looking for a house is not one that I am delighted with, and I am more than willing to have help. We are having beautiful weather. I manage to spend the time fairly well. I play golf mornings after noons walking out writing and any odd thing that turns up. Mr. Bristol expects to leave about the 20th he was going to leave on the 14 but the hotels that he wrote to for reservation. could not give him any. so that they stay here longer.

With love
John G.
