Fire Fed by Kerosene Ruins Buildings, Routes Six

Fed by 350 gallons of kerosene as soon as they arrived, fire damaged a two-story-

story building in Granite and several single-family homes at the time.

The fire started at a two-family building on a house owned by a man and woman.

The blaze began on the ground floor and quickly spread to the upper floor and attic.

Three apartments at 64 and 68 St. Joes., and 73 and 75 St. Jones, were

Soured by smoke and flames which forced the man and woman occupants out.

The blaze forced the occupants to leave their homes.

The concrete block wall of the house was consumed by flames.

The fire spread rapidly, consuming the entire building.

A man and woman, who were residents, were the last to leave the building.

The fire was eventually brought under control, but extensive damage resulted.

Several people were treated for burns and respiratory problems.

The cause of the fire is under investigation.
